

## NDALA HOSPITAL PHARMACY OPENING REPORT

Dear Dr George & Dr Rob

I trust that you are in good health and thriving in your respective roles. I am writing to provide you with a thorough report on the usage of the 7,000 Euros For purchase of drugs for the Ndala Hospital Community pharmacy.

We were fortunate to receive a total of **5,000 EURO** in our Euro account for (Pharmacy shop Supplies 1<sup>st</sup> Transaction), together with the **2,000 EUROS** remaining as Akiba into our account had made a total of 7,000 EUROS.

With the local exchange rate of **1EUR = 2,700/= TZS** we managed to get **18,900,000/= Tanzanian Shillings**.

The process of selecting a supplier with low price was made, and the order was placed on 24<sup>th</sup>, August 2023, and on 27<sup>th</sup>, August 2023 we received the package worth 18,900,000 Tanzania shillings.

**NB:** As per amount of money we had receive being less comparable to the proposed budget made before for opening the pharmacy purpose, the decision of buying small amount of each proposed groups of drugs were made and the order was placed basing on the drugs that are not available within the hospital pharmacy.

The challenge we are facing now is many drugs that are needed by the local “duka za dawa” are not available, so the plan is to find more capital to purchase enough stock, to sell for “locals duka za dawa” and other pharmacies.

After receiving the above amount of money (7,000 EUROS) the amount that will be needed as per proposed budget is about 13,000 EUROS, this amount of money will help us to have enough stock at our pharmacy for starring operations

The followings are pictures during the Sorting and arrangement of the drugs in the shelves.
